Dance Dynamics Studio, established in 2000, strongly encourages dancers to become multidisciplined team dancers and then specialize in a genre or working as a soloist if so desired.

Working as part of group encourages, accountability to others, leadership skills, compromise, communication, confidence and friendships. Specializing and becoming a soloist (or duet partner) further develops commitment, enhances confidence and deepens the passion of the Art and desire to share it with others. The life lessons gained from this approach are ones a dancer will take with them throughout their lives.

As the dance world is evolving faster than ever before, becoming more diverse, accepting and inclusive we are offering a scholarship that allows all dancers including those whose strengths may lie outside of the perceived traditional genres an opportunity to be recognized for their efforts.

At Dance Dynamics we are also true believers in allowing others to see how high the bar has been set and where they stand in comparison. For this reason to be eligible for this scholarship scores must be disclosed and WILL be published alongside the winners name.

To qualify for this award a dancer must:

- Have a combination of 4 groups or lines – no productions.
  - All genres are eligible
  - Where a Junior dances in a Senior group, those marks ARE eligible.
    And 2 Solos and/or duets
    - Duet scores will be eligible if the partner is in the senior age category.

DANCERS NAME: **DANCERS BIRTHDATE:**

	Group/ Line entry #	Solo/Duet entry #	Score
Routine 1		███████	
Routine 2		███████
